

WE'LL TAKE YOU FROM A to Baccarat.

In Baccarat, you simply place a bet on which of two hands, the "Player" or the "Banker," will end up with a point total closer to nine—or whether they'll tie. You don't make any decisions about how cards are played, all you do is decide what outcome to bet on and how much to bet.

MINI-BACCARAT

In Mini-Baccarat, you don't receive any cards, and you don't touch any cards. Cards are dealt face up in front of the dealer in two hands, the Player and the Banker. There are three possible outcomes to bet on:

- 1 The Player hand is closer to 9.**
- 2 The Banker hand is closer to 9.**
- 3 The two hands are identical.**

To calculate the point totals of the two hands:

- **10, Jack, Queen and King = 0**
- **Ace = 1**
- 2 to 9 cards count as their face value.

The highest possible point total for a hand is 9. Only the rightmost digit is used to determine a hand's value. For instance, if the Player hand is dealt a 9 and a 3, the point total isn't 12, it's 2.

LET'S PLAY ELECTRONIC BACCARAT

In addition to the table version, you can play a real live baccarat game using a touch screen terminal.

- 1** Insert your money into the terminal. Credits, also known as chips, will be registered, and displayed on screen.
- 2** When "Place your bets" is displayed on screen, select where you would like to place your chips by touching the screen.

LET'S PLAY

- 1** Place your bet on the Player hand, the Banker hand, or a tie.
- 2** The dealer deals two cards to the Player hand and two to the Banker hand.
- 3** The dealer announces the point totals for the two hands.
- 4** If the first two cards of the Player hand or the Banker hand total 8 or 9, it's known as a natural. No more cards are dealt, and all bets are paid out, based on which hand is closer to 9. If the two hands are identical, it's a tie.
- 5** If neither hand totals 8 or 9, additional cards are drawn, according to the third-card rule.

Third-Card Rule

If the first two cards of the Player hand total 0 to 5, the Player hand gets a third card. If the Player total is 6 or 7, it does not get a third card.

If the Player hand stood on two cards (i.e., it has a total of 6 or 7), the Banker hand follows the same rules as the Player hand in determining whether it will receive a third card. The Banker receives a card if its total is 0 to 5, and stands on 6 or 7.

If the Player hand takes a third card, these rules apply on the Banker hand.

3	Not an 8
